

Flow-Tite™

Rethink the pre-made shrink bag

Shrink Rollstock

Bemis Flow-Tite™ are high barrier shrink films that are engineered for optimum performance on most flow wrapping equipment to increase throughput and reduce the cost of packaging.

The Flow-Tite™ film wraps around the meat or cheese creating a shrink pack with a hermetic seal along its length and ends.

Bemis Europe is a supplier of flexible packaging used by leading meat and cheese companies across the EMEA region. We work collaboratively with forward-thinking companies to deliver inspired food and consumer packaging that enables customer success.

Bemis Europe is part of Bemis Company, Inc., a global packaging company with 60 facilities and 17,000 employees worldwide. With a presence across the Americas, Europe, and Asia, Bemis offers expert focus on helping each of its customers to move ahead towards success.

Maintains all the advantages of vacuum shrink packing at lower cost

Flow-Tite™

Outstanding Product Presentation

- Film clarity and surface gloss show off the product at its best.
- High shrink reduces material in the corners and limits purge.
- 10 colour printing available.

Cost Savings

- Increased pack throughput.
- Minimal seal contamination reduces leakers.
- Labour saving opportunities for high volume operations.
- Fewer SKUs than bags so less inventory.

Pack Security & Shelf Life

- High seal strength reduces leakers during distribution and rough handling.
- 75 microns film available.
- High barrier to oxygen.

Applications

- Fresh boneless and bone-in beef and pork.
- Processed meats such as hams and gammon.
- Cheese blocks and portions.

Main Advantages

- Excellent presentation
- Labour saving systems
- Long shelf life
