

ABOUT CEFLEX

CEFLEX is the collaborative initiative of a European consortium of companies representing the entire value chain of flexible packaging. Its aim is to further enhance the performance of flexible packaging in the circular economy by developing and advancing better system design solutions. Bemis is proud to be a partner in this project. Sustainability is more than recyclability

ABOUT US

We are a global supplier of flexible plastic packaging used by leading food companies worldwide. We design, develop, and manufacture innovative, fit-for-purpose packaging solutions that protect, hold, and enhance the sustainability of our customers' products.

BEMIS SUSTAINABILITY COMMITMENT

As a true collaborative partner, we work in tandem with our customers offering a variety of services and innovations that will help their business meet EU sustainability goals.

This includes:

- Recycling 75% of packaging waste by 2030
- Reduce landfill to 10% maximum (of municipal waste)
- Improved definitions & harmonized calculation for recycling rates

We collaborate with partners, such as Ceflex to secure the environment for future generations and transform the packaging industry.

Our Sustainability Commitment

At Bemis our approach to corporate responsibility is built on our desire to maximize the social, economic, and environmental benefits of our business.

SOME EXAMPLES OF BEMIS SUSTAINABLE PACKAGING SOLUTIONS

BEMIS APPROACH

Bemis packaging protects products and extends their shelf life. When food stays fresh longer, **food waste is reduced**. Our flexible packaging products are designed to provide **maximum protection** using the **least amount of material enhancing recyclability**.

FLEXIBLE PACKAGING USES LESS RESOURCES*

Examples of packaging needed to package 60 pounds of beverage

OUR PACKAGING PRIORITIES

We collaborate with our customers to improve the sustainability profile of their products.

Pack size optimization:

- Avoid over-packaging and excess weight
- Ensure light-weight products are fit for use

Endorse Reduce, Re-use, Recycle:

- Increase the share of approved-source recycled content
- Use mono-materials or materials that can be separated
- Target solutions for approved recycle streams

Food waste reduction:

- Guarantee product integrity and longer shelf-life to prevent food waste

PET – Platform

Market leader for 15 years
Platform of top-webs compatible with mono APET bottomweb

Paperly™

Paper-based thermoformable packaging

	PET – Platform	Paperly™
Source reduction	Up to 15%	Up to 65% vs traditional packaging
Less CO ₂ emission	-	70% less
